Question 14 - Impairment

Introduction - The purpose of the following inquiries is to determine the current fitness of an applicant to practice law. The mere existence of or treatment for a physical or mental health condition or addiction is not, in itself, a basis on which an applicant is denied admission to the Maryland Bar. The State Board of Law Examiners encourages those who may benefit from mental health and addiction treatment to seek such treatment.

The State Board of Law Examiners does not seek by these questions information regarding any matter that is fairly characterized as situational counseling. Examples of situational counseling include stress counseling, domestic/family/marital counseling, grief counseling and counseling for eating and sleeping disorders, which the State Board of Law Examiners does not generally consider germane to the issue of whether an applicant is fit to practice law.

14(a) Do you have any condition or impairment, including but not limited to any physical condition, alcohol, drug or other substance abuse, or any mental, emotional, nervous or behavioral condition, that in any way currently affects, or if untreated or not otherwise actively managed, could affect your ability to practice law in a competent, ethical and professional manner? Yes No

(In this question "currently" means recently enough that the condition could reasonably have an impact on your ability to function as a lawyer. "Actively managed" means that you receive appropriate therapy (with or without use of medication), participate in supervised monitoring and/or a recognized peer support program, and/or utilize other appropriate support systems to manage your condition or impairment.)

If your answer to 14(a) is "Yes," in the space below, describe the condition, disorder or substance abuse problem. If your description exceeds 200 characters, attach a separate signed statement containing the information requested.

14(b) If your answer to 14(a) is "Yes," are the limitations caused by your condition or impairment reduced or ameliorated because you receive ongoing therapy or treatment (with or without medication) or because you participate in a monitoring program or other support system? Yes No

If your answer to 14(b) is "Yes," in the space below, describe the treatment or therapy utilized to reduce or ameliorate the effects of your condition, disorder or substance abuse problem. If your description exceeds 200 characters, attach a separate signed statement containing the information requested.

14(c) Within the past three (3) years, have you asserted any condition or impairment as a defense, mitigation or explanation for conduct in any judicial or administrative proceeding or investigation (including any inquiry or investigation by an educational institution, employer, governmental agency, professional organization or licensing authority)? Yes No

If your answer to 14(c) is "Yes," in the space below, explain the circumstances under which you raised such issue. If your explanation exceeds 200 characters, attach a separate signed statement containing the requested information.

If you answer "Yes" to any part of Question 14, you MUST supply in the space provided and/or in a separate signed statement, a description of the condition/impairment and of any treatment or therapy you have received in the past year. If you have been under the care or supervision of a healthcare professional for such condition/impairment, you MUST also attach a statement from that healthcare professional specifying the current diagnosis, treatment regimen, prognosis, and its bearing on your fitness to practice law.

Question 15 - Other Conduct
